

# Morning Star Residential Treatment Home

## MORNING STAR RESIDENTIAL TREATMENT

home is a beautiful home located in Central Phoenix, Arizona.

Morning Star offers a special healing environment for girls, pregnant teens and teen mothers with babies.. Morning Star is a continuous entry program and accepts ongoing applications for its 5 beds.

At Morning Star, Youth experience culturally respectful counseling, traditional healing ceremonies, life skill training, and individualized educational opportunities in a loving home environment. Youth have the opportunity to attend NDNS4Wellness Recovery school, actively participate in the development of individualized treatment plans, attend individual counseling & group counseling sessions, traditional ceremonies, participate in Indian studies education, have access to traditional practitioners, create Native art & craft products, garden, participate in parenting classes, Parents As Teachers Program, baby and me activities as well as other specialized activities.

*As with all AIPC treatment homes, Morning Star Residential Treatment Home complies with all required AZ Dept of Health policies & procedures for residential care, including site licensure, staff certification/training & fingerprint clearance etc.*

### Criteria for enrollment is:

- Youth WANT to participate in this program and be willing to follow the program rules.
- Youth agree to and are referred and authorized for a minimum of 60 days with 90 days being an average course of treatment at Morning Star.
- Youth have substance abuse and/or mental health related issues that qualify them for authorization in a Level 2 treatment home environment.
- Youth have authorizations and permissions for attendance.
- Youth are medically cleared for attendance
- Youth are not actively violent or intent on self harm.
